Scores and Classification

Two separate rankings, by Clubs, will be kept, one for each of the two Memorials, by adding the following individual points for each race and for each category: **9** points to the winner, **7** to the second place, **6** to the third, and so on till the eighth place with **1** point. For the relays the points will be doubled.

For those athletes (*this rule applies only to Italian citizens*) who are affiliated also to a military club, they will have to declare, in advance, to which one of the two clubs the points shall be assigned.

Granted that every club can register an unlimited number of athletes per event, the points will however be assigned only to the best two classified per club and per category.

The mega-relay is limited to one team per each club.

At the end of the Memorial, in case two (or more) teams end up with the same number of points, the club with the highest number of individual first-places will prevail.

The **results of the races** will be available on line, in real time, by clicking on www.natatoria.com

Triestina Nuoto declines any responsibility deriving from the organization of the meeting before, during or after the event is taking place. For whatever not included in the present Rules the general regulations issued by the Italian Swimming Federation (F.I.N.) will apply.

VI MEMORIAL BIANCA LOKAR – 2017

The competition is restricted to the younger athletes, “**Esordienti A & B**” (100m for each stroke and 200m individual medley). The mega-relay will be altogether (see below).

The individual results and awards will be divided in four groups:

Esordienti B: Girls born 2007 & 2008 and Boys 2006 & 2007

Esordienti A: Girls 2005 & 2006 and Boys 2004 & 2005

Every club can register an **unlimited number** of athletes. Every athlete can compete to a **maximum of 4 races**.

The organizing committee reserves itself the right to modify the program and **close the registrations in advance, race by race or for the whole event**, on the basis of the number of registrations received and the schedule of events per each session. In any case all participating teams will be informed well in advance of any related changes.

The races will be divided **in series** (no finals) between boys and girls, based on the registration times per each race. The girls will always race before the boys, and the start will be given with the previously arriving athletes still in the water.

The mega-relay will have all categories competing together, and will have to be compulsorily composed of: 2 EsoA F + 2 EsoA M + 2 EsoB F + 2 EsoB M. The sequence of the starts is open. Each club can register only one relay team. At the time of the registration it will be enough to write the names of four of the eight athletes.

For these two races only, there will be no separation of categories. For those who registered but are not being able to participate to this race (over the limit of 20) the organizing committee may propose to the athlete to participate to an alternative race, which will be communicated in advance, via e-mail, to the related club.

The organizing committee reserves itself the right to modify the program and **close the registrations in advance, race by race or for the whole event**, on the basis of the number of registrations received and the schedule of events per each session. In any case all participating teams will be informed well in advance of any related changes.
